

COMBUSTIBLE AND NONCOMBUSTIBLE WASTE DISPOSAL

COMBUSTIBLE & NONCOMBUSTIBLE WASTE: Put items to be disposed in 45 liter transparent/translucent waste bags. From June 2011, Kiryu residents must use Kiryu City waste disposal bags.

NONCOMBUSTIBLE WASTE: any item not fitting into the designated 45 liter bag is considered bulky waste and must be disposed as bulky waste only. Kerosene heaters are bulky waste even if they fit in 45 liter bags.

BROKEN OR SHARP ITEMS: Wrap broken glass, razor blades and knives in heavy paper and put in bags labeled "きけん" (kiken) in red for disposal.

COMBUSTIBLE WASTE

NONCOMBUSTIBLE WASTE

	drained raw kitchen waste		laundry poles cut to max 70 cm long
	soiled or paper with coating that cannot be disposed with paper waste		dish ware, glasses, broken glass (see instructions above)
